OPTIONAL REPLY DUE: JUNE 14, 2013

Dear Interested Parties:

The Bureau of Land Management Tres Rios Field Office is seeking comments on the **West Dolores Rim Hazardous Fuels Reduction environmental assessment (EA)** that is proposed in Dolores and San Miguel Counties on public lands located in all or parts of T40N R17W, T40N R18W, T41N R 17W, T41N R18W, T42N R18W, T42N R19W, T43N R19W and T43N R18W (see attached map). The project area is approximately 15,000 acres and is planned to be implemented over a 10 year period with mechanical and prescribed fire treatments with no more than 1,500 acres completed each year, beginning in 2013. The project would connect several previous fuels treatments completed in past years to create a mosaic of fuel breaks along the eastern side of Dolores river canyon area.

The purpose of and need for this action is to restore the fire regime condition class to more natural values within the project area and reduce the risk of catastrophic wildland wildfire. Additional benefits include improved habitat and forage for elk, deer, cattle, turkey and Gunnison Sage Grouse as well as improve vigor and health of ponderosa pine stands thereby improving ecosystem resiliency.

The environmental assessment is available for review at the Dolores Public Lands Center, 29211 Highway 184, Dolores, CO as well as online at: http://www.blm.gov/co/st/en/BLM_Information/nepa/TRFO_NEPA.html

Site specific comments should be submitted via FAX, email or hard copy to:

BLM Tres Rios Field Office
ATTN: Brad Pietruszka
